

## CAMP OLAVE INFORMATION SHEET

- PAYMENT OF FEES** Return the Confirmation form, along with your payment to the Booking Agent *four weeks* prior to your camp. **The Confirmation form is your receipt.** Make a copy for your files. In the event that you need to pay for additional campers, either send another copy of the Confirmation form; or note on the cheque your name, dates of your camp, campsite, number of campers and number of nights.
- ORIENTATION** Every Responsible Guider must receive an orientation or an update **each and every time** they come to Camp Olave. Phone your respective Site Manager – they are listed on the sheet you received from the Booking Agent. If you are a large camp and have booked more than one site, **each** Guider who is in charge of a site **must** phone for a site specific orientation.
- SAFE GUIDE** **Swim Tests:** Anyone (girl or adult) who wants to swim without a personal floatation device (PFD) must take a swim test. This includes non-members. Swim tests are valid for five years from the date of testing. **It is the Guider’s responsibility to ensure that successful swim test results are entered into iMIS records.** If a participant does not successfully complete the swim test, they are considered a non-swimmer and cannot go in water more than mid-calf-deep without a PFD. To successfully complete the test the swimmer must: swim 50 meters and then immediately tread water for one minute (refer to the on line Safe Guide at the GGC website; “Water Activities” section). Once a girl/adult has passed the swim test she does not need to do the boat test. Participants who can show proof of completion of Red Cross, Swim Kids 5, Lifesaving Society Swimmer 4 or the equivalent may be exempt from the swim test. During the summer months (May to August while the lifeguards are at camp), Camp Olave receives blanket approval for swimming and boating activities. It is not necessary for individual Guiders to submit information to the Water Activities Advisor. If you are planning any waterfront activities that are outside the established waterfront, you must complete all Safe Guide requirements, as per Safe Guide Water Activities section.
- Emergency Response Guidelines and the Emergency Response Plan SG.4 for procedures to follow while at camp are posted on each site. Guiders are responsible for their own SG.4 form while traveling to and from camp.
